REMARKS

In accordance with the forgoing, claims 1-34 have been cancelled and new claims 35-43 have been added. Claims 35-43 are pending and under consideration.

In the Office Action, the Examiner raises a restriction requirement and an election of species requirement. The Examiner states that the application contains 3 independent inventions. The claims referred to by the Examiner have all been cancelled. Accordingly, the restriction requirement should be moot.

The Applicants wish for new claims 35-43 to be prosecuted in the present application. Antecedent and basis for these claims can be found, for example, in Fig. 6, 9, and 10 and the corresponding description in the specification.

If there is any question regarding this Preliminary Amendment and Response, such questions can be directed by telephone to the undersigned.

It is respectfully requested that this Preliminary Amendment be entered in the above-referenced application.

If there are any additional fees associated with filing of this Preliminary Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,
